

So this is where the records format of the main assessment goes.

### **Collection: student\_responses**

#### 0. Alphabet Knowledge, Decoding, Word Recognition

```
{
  "_id": {
    "$oid": "68d05486149a3591bf789e14"
  },
  "studentId":,
  "assessmentId": "1",
  "questionId": "WR_014",
  "category": "",
  "questionType": "word",
  "response": [
    "SUSI"
  ],
  "isCorrect": true,
  "responseTime": 0,
  "answeredAt": {
    "$date": "2025-09-21T19:39:50.236Z"
  },
  "createdAt": {
    "$date": "2025-09-21T19:39:50.236Z"
  }
}
```

#### 1. Phonological Awareness Format in student\_responses:

```
{
  "_id": ObjectId,
  "studentId": 123, // integer
  "assessmentId": "1", // string
  "questionId": "PA_001", // PA_002, PA_003
  "category": "Phonological Awareness",
  "questionType": "malapantig", // or "matching"
```

```

"response": [
  "H:Hh", // audio:match pairs as strings
  "T:Tt",
  "N:Nn",
  "L:LI",
  "P:Pp"
],
"isCorrect": true, // or false
"responseTime": 0, // milliseconds (currently not tracked)
"answeredAt": "2025-01-15T10:30:45.123Z", // ISO string
"createdAt": "2025-01-15T10:30:45.123Z" // ISO string
}

```

## 2. Reading Comprehension Format in student\_responses:

```

{
  "_id": ObjectId,
  "studentId": 123, // integer
  "assessmentId": "1", // string
  "questionId": "RC_001_0", // RC_001_1, RC_001_2 (sub-questions)
  "category": "Reading Comprehension",
  "questionType": "sentence",
  "response": [
    "Ana" // Single text answer as array element
  ],
  "isCorrect": true, // or false
  "responseTime": 0, // milliseconds (currently not tracked)
  "answeredAt": "2025-01-15T10:35:12.456Z", // ISO string
  "createdAt": "2025-01-15T10:35:12.456Z" // ISO string
}

```
